```
1 package lab4;
2
3 public class Divide {
4
5     public static void main(String[] args) {
6
7         System.out.println("These numbers can be divided by 7: ");
8         int a = 1;
9         int row = 1;
10        String space = "";
11
12        while(a <= 200) {
13
14            if(a%7 == 0) {
15                space += Integer.toString(a) + ",";
16
17                if(row == 4){
18                    row = 1;
19                    space += "\n";
20                }
21
22                else {
23                    row++;
24                }
25            }
26
27            a++;
28        }
29
30        System.out.println(space);
31
32    }
```
